[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 13.

EASTERN STATES.

The Tammany Thieves.

NEW YORK, Sept. 12.—A meeting of Irish workmen last night applauded the address in denunciation of the Tammany leaders. O'Donovan Rosen, in a short address, regretted that the Irish were led by Tammany Hall. Members of the Ring were referred to in bitter language—Mayor Hall as a Knownothing and juggler.

District Attorney Morrison says if the President and officers of the Staten Island Ferry Company are not brought to trial for the *Westfield* disaster by the New York authorities, he will have them indicted and tried in Brooklyn within the next two months.

The *Times* says it is now stated on the authority of Hon. R. R. Roswell, Democratic member of Congress from the Fourth District of this city, that the debt of New York is not less than $200,000,000, or more than 18½ per cent. of the assessed valuation of real estate, which is only a part that can be counted on to pay the debt of this enormous burden. More than one sixth of fifty million dollars has been added since January 1, 1869, under the administration of the Ring.

Damage to the Cotton Crop.

CHARLESTON, Sept. 12.—Accounts from all parts of the State represent the continuous rains during the past week as very disastrous to cotton. On the islands it is expected the yield has been cut off by unfavorable weather at least one half, and from the interior of the State reports of rust and shedding of fruit by the plant are universal.

Yellow Fever at Beaufort, S. C.

WASHINGTON, Sept. 12.—The Beaufort (S. C.) *Republican* of the 7th inst., mentions several cases of yellow fever, two of which proved fatal.

Grand Council of Red Men.

PHILADELPHIA, Sept. 12.—The Great Council of the Improved Order of Red Men met this morning, including representatives from Ohio, Kentucky, Missouri, California, Tennessee, Indiana, Texas, Virginia, Michigan, Oregon, Nevada and Illinois.

Cattle Disease in England.

WASHINGTON, Sept. 12.—The U. S. Consul at Liverpool writes to the Department that in consequence of the prevalence of the cattle foot and mouth disease in England, he has discontinued granting certificates to ship cattle to the United States.

Maryland Politics.

BALTIMORE, Sept. 12.—The Republican State Convention, for the nomination of candidates for Governor and State officers, met to-day, all the counties except Talbot being represented. Among the delegates were twenty colored men. Hon. Jacob Towne of Cecil was nominated for Governor by acclamation; Alexander Ramsdell for Attorney General, and Lawrence J. Brengle of Frederick, for Controller.

Resolutions were adopted to sustain the Administration, commending the faithful execution of the laws, general honesty and efficiency in public service, rapid decrease of the debt and taxation, and recommending the renomination of Grant.

Resolutions denouncing the principles, position and practice of the Democratic party were adopted. A resolution favoring the annexation of San Domingo was tabled by a vote of 58 to 267.

The Tammany Quarrels.

NEW YORK, Sept. 12.—There is the best authority for stating that Mayor Hall will take no farther action looking toward the removal of Controller Connolly. In a conversation with a reporter this evening he stated that he had no intention of preferring articles of impeachment against Connolly.

BY ATLANTIC CABLE.

French Affairs.

VERSAILLES, Sept. 12.—In the Assembly the budget of the committee was reported adversely.

The bill provisionally increasing taxes to meet immediate demands of the administration is pending the sanction by the Assembly of new taxes.

The Assembly adopted a bill revising the pension list of the late Imperial Government. It abolishes all pensions except in cases of extreme poverty, or where the grant was made for distinguished services.

BRUSSELS, Sept. 12.—The machine shops of the city have been closed by proposals of strikers, who are now parading the streets. No disturbance has occurred.

Sweden "Prepares for Peace."

STOCKHOLM, Sept. 12.—The Diet has been specially convoked to make provision for a reorganization of the army.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 13.—Passed west to-day at Ogden: Madam Kumlette and two children, Olympia; E. P. Rogers and family, Portland.

POLITICAL NOTES.

The phrase "new departure," which has recently been adopted into political literature, did not originate among either land surveyors or seamen, as might be supposed, but among lawyers. It means, technically, the abandonment, in pleadings of one ground of action or defense and the taking up of another. Senator Wilson, of Massachusetts, was the first man of any note who applied it to political matters, but its appropriateness was immediately perceived by other writers and speakers, and now everybody is familiar with it.

A New York dispatch of recent date says: Politicians of all parties are greatly interested in the threatened secession of German Democrats from Tammany Hall and their affiliation with the Republicans. Indications are strong that the secession will take place and will secure the State to the Republicans in the coming election. Germans all over the city have been eagerly discussing the matter for several days, and they are almost unanimous in demanding that the authorities shall prove their innocence of the recent charges of fraud or else lose the German support.

The Chicago *Mail* has this: The Honorable James R. Doolittle resides with his family at No. 48 Douglas Place, Chicago, which is doubtless a very good reason why he should be a candidate for Governor of Wisconsin. But Chicago need not begin to mourn for the loss of this distinguished citizen. His family need not fear that the home hearth must be deserted for the stately mansion of the chief executive of another State; in short, if Mr. Doolittle doesn't remove from Chicago until he becomes Governor of Wisconsin, he will become the very oldest citizen Chicago has ever known.

FOREIGN NOTES.

The Prussian Government has resolved shortly to propose the final removal of all legal disqualifications of the Jews, and to grant new rights to the corporations combining for worship in synagogues.

According to the *Liberte*, the idea is seriously entertained of establishing in Paris, a Faculty of Mixed Protestant Theology, in consequence of the Lutheran Faculty at Strasbourg having been suppressed.

The brilliant journalist, Edmund About, who abused his best friend, Napoleon, so bitterly for the French defeat at Worth, is now directing his artillery against Favre and Gambetta, the former for impeding his (About's) appointment to Lisbon, and the latter for secretly aiding the commune, and demoralizing the French army.

"The Battle of Dorking" has had a salutary effect on the English mind, as seen in the fact that the Duke of Cambridge has offered a prize of £100 for the best military essay on the subject of "the system of field manœuvres best adapted for enabling our troops to meet a Continental army." The essays are to be forwarded to Col. Hamley, to whom is attributed the authorship of this marvelous prophetic fiction.

The first volume of Mr. Bryant's "Odyssey" will come out in September.

OREGON.

Yaquina Bay is still quite thronged with visitors.

Many settlers have gone into the Yaquina Bay country.

F. Pierce, late Capt. U. S. A., has been appointed light house keeper at Yaquina.

The home of J. France at Yaquina was destroyed by fire a few days since. Loss $600.

The mother of Asa and David McCully died at Harrisburg on the 9th at the age of 84 years.

Parties at Salem are paying $1.10 for wheat. The average yield for Marion county is stated at twenty bushels per acre.

Walter Serwell of French Prairie was arrested and held to bail a few days ago for cruelly beating two of his own sisters.

The Supreme Court has decided that the Common Council of Corvallis in attempting to decide an election contest between two persons claiming to have been chosen to fill the office of Recorder in that city, exceeded its authority, having attempted to exercise judicial functions. It is held that the party who deems himself aggrieved by the result declared by the original canvassers of the vote, has his remedy by *quo warranto*.

A correspondent writes from Yaquina Bay: The new schooner *Elnorah*, on her return trip from San Francisco is off the bar. Capt. Allen has assumed command, vice Capt. Winant, who is now acting as superintendent to the Pacific Oystering Company, of San Francisco. The lead of stone coal discovered by Mr. Thorn, at Oysterville, is I understand, opening out "bully." The new steamboat at Pioneer is fast approaching completion, and I hope will get her share of traffic.

THE TERRITORIES.

Steilacoom is said to be "looking up." There is a fine chance.

Olympia papers complain that the appropriation for surveys in Washington Territory is being almost wholly spent in surveys east of the mountains.

An Olympia paper says that a young man, named Rhodtree, recently discovered a bee-tree, on the Boisfort Prairie, Lewis county, containing a large quantity of honey, valued at fifty dollars.

Watts, the murderer of Hibbard, on San Juan Island, a year or two ago, it is said will probably escape without further punishment, in consequence of the decision of the Superior Court of Washington Territory.

A Port Townsend paper reports this: Waterman & Katz's fishing schooner *Alaska*, Capt. Wm. McGann, has arrived, 28 days from Cape La Patka, Okhotsk Sea, with 110,000 codfish and 10 barrels of tongues. The *Alaska* carried 13 men, and made her catch in 35 fishing days.

BRITISH COLUMBIA.

A few days ago, Arthur Finney of Nanaimo, was robbed of $800 in money and $200 worth of jewelry.

Apprehensions are felt for the safety of the ship *Maud Helen*, over forty days out from San Francisco.

They are in the agonies of a canvass in British Columbia for the election of members to the Dominion House of Commons.

Among the persons blown up by the explosion of the *Westfield* at New York, were Moses Philips, of Victoria, his wife, father, mother and two children. The children were lost.

G. Vignolo, formerly a leading merchant of Victoria, who was one of the saved from the wreck of the steamship *Northerner* in 1859, being washed ashore and resuscitated with difficulty, died a short time ago at Genoa, Italy.

CALIFORNIA POLITICAL NOTES.

Booth's majority in Sacramento city was 847; in the county 1,064, a greater majority than Grant's, notwithstanding the hundreds of Democratic "imports" at work on the State buildings.

Congressman Sargent, of the Second District, just re-elected, is a candidate now for the U. S. Senate. The Senator to be chosen this winter will not take his seat till March, 1873, by which time Sargent's term as member of the House will have expired.

On election day Democratic politicians in San Francisco telegraphed all over the State that the city was "safe" and victory certain. On the strength of these telegrams the confiding rural Democracy bet their money very freely and now grind their teeth in rage, refusing to be comforted.

The German, French, Spanish and Italian Republican journals in San Francisco, are indulging in a sort of political love feast, in consequence of the rout of the political sinners on the memorable 6th of September, 1871. They congratulate their fellow Republicans on the grand victory, and with a modesty which well becomes valiant conquerors, add: Let us have peace.

The Sacramento *Union* has this: The smoke of the battle has scarcely cleared away, but the Democrats are in the field again and greatly exercised on the question, "Who shall be United States Senator?" So far the expression of the Democratic papers seems to be in favor of Gorham. We apprehend that the victors, rather than the vanquished, have the first say in this matter, and will be happy to relieve the Democracy of any trouble or anxiety that they may naturally have in connection with so important a position. "Rest, perturbed spirit, rest."

CURRENT NOTES.

Two years experimenting has demonstrated that the poppy culture in California is a success. The opium contains an unusual percentage of morphia, and is considered far superior to the ordinary opium of commerce.

St. Louis makes a pretty good show in the number of its churches. The Protestant churches number 63, valued at $2,110,000; Catholic 22, valued at $1,125,000; Hebrew 3, valued at $127,000. Total valuation of churches, $3,462,000.

What whisky may do, is shown by the St. Louis *Democrat*, which describes how a deputy United States Marshal got drunk, lost a prisoner, was himself arrested by the police, was dismissed by the marshal, was put off a train of cars and was run over and killed, all in one day.

The liquor exhibit made by Mr. Young of the bureau of statistics shows that out of six hundred millions of dollars' worth of liquors sold in this country last year, one hundred and thirty millions was for ale, beer and porter. The Richmond *Whig* thinks it is encouraging to learn that malt liquors and imported and domestic wines are fast gaining upon whisky. We doubt if they are. The great consumption of malt liquors is due to our largely increasing German element. When we find that less whisky is being drank than formerly, then we shall be encouraged.

Washington Irving, says his friend and publisher, Mr. George P. Putnam, was very fitful in his literary composition. Some times he would not touch his pen for weeks; at others he would leave his bed in the middle of the night, and write for hours together, because he felt "in the mood." His "Life of Oliver Goldsmith" was his most rapidly written book, having been written and printed within less than three months.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

New York News.

NEW YORK, Sept. 13.—A morning paper has a statement that John W. Norton, Superintendent of the money department of the Postoffice, is a defaulter to the extent of $100,000 to $150,000. He drew on the U. S. Treasury at the Sub-Treasury, for $142,000, ostensibly for use in the Postoffice Department. This morning he is known to have used it in speculations in Wall street. He has compromised with the Government and resigned his position. Other employees are said to be suspected of similar crimes.

It is believed that Mayor Hall's request for the resignation of Controller Connelly will be refused. The latter will be the means of securing a disruption of the Ring faction. Efforts which have been made by Hall and Sweeney to crush Tweed and Connolly have met with an indignant response by the friends of the latter gentlemen, who insist that if any resignation be made they must include all who are in any way tinctured with complicity in transactions in the city government. The only difference which is said to exist between Hall, Sweeney and Tweed and Connolly is that the former are a great deal more crafty and deceitful than the latter.

August Belmont yesterday had a consultation with Mayor Hall, and the event gave rise to many rumors that he would be appointed to succeed Connolly in case the latter resigned.

Ingersoll, one of the gents who drew large claims against the new Court House, was said yesterday to have disappeared for Europe.

BY ATLANTIC CABLE.

French Affairs.

LONDON, Sept. 13.—A special to the *Times* from Versailles says Thiers sent a message to the Assembly on Tuesday. He urges the adoption of a proposition for a provisional increase in the revenue, and is sorry that the weariness of members and the approach of vacation prevent the discussion of new taxes with the necessary freedom of mind. He thinks best that the Chamber should soon separate to re-assemble at an early day. In conclusion, the President says he relies on the patriotism of the country to preserve perfect tranquility and order which France needs to raise her credit.

The Ambassador at Washington will probably be the nephew of De Tocqueville.

English Matters.

The people of Cardiff are angry about the American vessel with cholera on board at the quarantine.

Spain has dismissed the Police Inspectors, for non-execution of gambling house orders.

King Amadeus is at Terragona, quite well and enthusiastically received.

It has been decided at Salsburg to suppress the International Society, and settle the Schleswig question.

The Mont Cenis tunnel was successfully opened, trains passing Don Caster.

The population of Berlin is 900,000.

From Bucharest.

BUCHAREST, Sept. 13.—The people of this city are excited by a false report that Jews have sacrificed a Christian and made an attack on their market place. Government promptly interfered with a strong force. The gen d'armes arrested the leaders of the riot. No attempt has been made to renew the disturbances.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 13.—This has been one of the warmest days of the season, a regular down east summer.

Both the Australian and New Zealand steamers carried an unusually large number of passengers.

Madame Agatha States and opera troupe went out by the *Moses Taylor*.

Samuel Rosenthal, dry goods dealer, Kearney street, suicided by hanging, at his residence, 23 Stockton street, to-day. Cause, pecuniary embarrassment. He leaves a wife and two children.

The recount of the vote of the city, so far, has resulted in no change worth a thousandth part of the trouble. They are now at work on the Fifth Ward, having discovered no error in the first half of the votes.

The steamer *Prince Alfred* has arrived from Victoria.

Mining stocks are rather stronger, but the Comstock lead is much less dealt in than outside stocks.

The wheat market is rather quiet.

SAN FRANCISCO, Sept. 13.—The owners of the steamer *Constantine* state that she has simply been hauled off for repairs and not sold out to Holladay & Brenham as reported.

The boy Roberts, who was shot, blinded, and otherwise maimed for life by an infernal machine on Hiram Clifford's milk ranch Sept. 9th, brings suit through his guardian against Clifford for $20,000 damages for setting the machine.

The whole available rolling stock of the California Pacific Railroad being brought into use to hurry forward to the East the cargo of tea brought by steamer.

The English steamer *Cleota* is due with another large cargo.

SAN FRANCISCO, Sept. 13.—Patrick Roach, whose feet were crushed by the cars at the foot of Second street last night, had parts of both feet amputated at St. Mary's Hospital to-day.

Solomon Rosenthal, the merchant who committed suicide to-day, shot himself with a pistol and instantly swung himself off in order to make a sure thing of it.

INTERIOR CALIFORNIA DISPATCHES.

From Los Angeles.

LOS ANGELES, Sept. 12.—The official returns of Los Angeles county: Total vote for Governor, 3,498; Haight's majority, 656.

Henry Donahue, a desperado, made an attack on M. Barnes in his store. Barnes escaped death by concealing himself behind his merchandise. Donahue went through town swearing that he would kill Barnes, and returned to the store for that purpose, and received the contents of a gun loaded with buckshot, which was the cause of convening a Coroner's jury, who returned a verdict of—"served him right."

Sonora letters say the Indians are more bold there than at any time during twelve months.

Gen. Crook arrived at Camp Grant ten days since. Hearing of depredations he started two companies of cavalry in pursuit.

SAN JOSE, Sept. 13.—The Supervisors completed the recount of returns to-day. Several errors were discovered, giving Corcoran (Dem.), the present incumbent, a majority of 10 votes.

A young man fell from the top of a train of cars to-day, and was run over and badly mutilated. He received a fracture of the skull and died at noon.

YREKA, Sept. 13.—Complete returns from Humboldt county give Booth 440 and Coughlan 435 majority.

Klamath county, with two precincts to hear from, goes for Haight 106 majority.

SAN DIEGO, Sept. 13.—Affairs in Lower California are once more quiet.

A curious typographical bull is pointed out in the new edition of Pope's works, published by Murray, in London:

> "Behold, four Kings, in majesty revered,
> With hoary whisky and a forky beard."

The lines are from "The Rape of the Lock," and "whisky" should of course be "whiskers."

LITERARY NOTES.

Noah Webster first made up a weekly paper from a daily.

A new volume of poems by Bret Harte is promised in September.

A new and cheap edition of the "Iliad," as translated by Bryant, will soon be published.

Geo. Ticknor's "History of Spanish Literature," in three vols., with the author's latest additions, will be published next month.

A new volume of Dickens works is to be issued, which, it is said, will complete his works. It is a sort of gathering up of the odds, and will consist of Edwin Drood, the Child's History of England, George Silverman's Explanation, A Holiday Romance, and other new matter heretofore uncollected. It will appear in September.

Theodore Tilton very gracefully says: "Genius is cosmopolitan. Burns sings to the universal heart. Shakespeare belongs to mankind. Dickens migrated from England to the world. Goethe rose out of Germany into the atmosphere of modern thought, and is the property of whoever thinks or feels high enough to take in his universal ideas and influence."

The Hartford *Post* perpetrated a practical joke of the first magnitude a few days ago. With a design evidently of forcing the attention, the heat being on that day excessive, it published half a column of paragraphs, of which the following are samples: "If your feet or ears get frost-bitten the thing to do is to put them at once into cold water and restore the circulation." "Notwithstanding its comfort, a hot fire in one's sleeping room is unhealthful." "It is said that fur mufflers worn about the throat are unhealthy. They should be guarded against in this weather." "Coke makes a warm fire, as well as a pleasant one. It can be had at the gas works." "How comfortable it is to sit down before one of those old fashioned roaring fires in an old fashioned wide mouth fire place." There were other paragraphs about the pleasures of sleigh riding, the delights of skating and similar aggravating hopes.

THURSDAY MORNING, SEPT. 14, 1871.

An Important Question to be Decided.

A decision is to be had from the highest judicial tribunal of the United States on the power of a State to regulate the tariff of travel and freight on railways within its limits. A statement of facts regarding the manner in which this question has arisen may be necessary to enable readers to fully understand the present status of the subject.

In the State of Illinois there are now nearly four thousand miles of railways. Within the last two or three years there has been a feeling among farmers and other classes in various portions of that State that passenger fares and charges for freight have been too high,—so much so as to be seriously oppressive. This feeling led to the holding of public meetings in different places to consult on what course to take to do justice to all concerned. It was a general sentiment in the meetings referred to that no representative government had authority to grant franchises to companies which would take all the rights from the people and operate in great injustice and injury to the masses of the community. This sentiment was carried into the Legislature, which at its last session passed a law providing for the appointment of Commissioners on behalf of the State, requesting the railroad companies to make reports of the gross incomes of their roads on every 1st July for the preceding year, authorizing the Commissioners to regulate the freight and passenger tariffs, and under certain circumstances to establish ware houses, together with other provisions of like character. Under the law the Commissioners by circular called on the companies to transmit to them the statements required. On the 1st August ult. the Commissioners met at the Capital of the State. They found that several companies had furnished the statements called for, but other companies were represented by their officers who stated that their exhibits were made up at the close of the year and could not be furnished at the time required by law without much inconvenience, labor and expense. They had no objection to furnish the Commissioners with the results of their business, but they would enter a protest against the validity of the law under which the Commissioners acted. After some deliberation it was decided that an agreed case should be carried up to the Supreme Court of the United States upon the constitutionality of the law of Illinois. It was the desire of both parties that the decision should be speedily made. A more important question has rarely gone to that tribunal for a decision.

National Progress.

It will require a long time yet to give to the country the full results of the census of 1870, but the main features of the inventory of our resources have found their way into print. From these, it appears that there has been an increase in the real property in thirty-three States and Territories during the last ten years of $3,154,849,930, and a decrease in personal property of $654,231,065. The Northern States, say the N. Y. *Shipping-List*, show a substantial increase in both real and personal property, while the effects of the war are clearly exhibited in the returns from the Southern States, nearly every one of which shows a marked decrease of both real and personal property. Proceeding in alphabetical order, we find that the total valuation of California increased from $139,654,667 in 1860 to $269,644,068 in 1870. Delaware advanced from $39,767,233 in 1860 to $64,787,223 in 1870; in Illinois the increase in ten years has been from $389,207,372 to $764,787,000; in Indiana, from $411,032,424 to $636,455,044; in Iowa, from $205,166,685 to $308,098,165; in Missouri, from $266,936,841 to $552,728,032; in Nebraska, from $7,426,939 to $55,719,432—an enormous increase, showing the rapid movement of enterprise and capital Westward; in Ohio, from $959,867,101 to $1,512,437,886; in Pennsylvania, from $719,253,335 to $1,171,557,609; in Wisconsin, from $156,225,169 to $333,447,568.

In the New England States the increase in the valuation of real and personal estate has not been so marked as in the Middle and Western States—a fact which is perhaps accounted for by the steady emigration which has drained that section for the benefit of newer and more inviting regions. In Maine the total valuation in 1860 was $152,280,388, against $202,990,319 in 1870. In New Hampshire the valuation in 1870 was $128,468,539, against $123,810,089 in 1860. In Vermont the valuation has increased $54,758,618 in 1860 to $93,904,547 in 1870; in Rhode Island from $125,104,305 in 1860 to $213,880,492—a remarkable increase, when the size of the State and its aggregate population are considered; and in Massachusetts, from $777,157,816 in 1860 to $1,341,169,403.

The fortunate geographical position of New Jersey is illustrated by the fact that her total valuation has increased from $296,682,492 in 1860 to $624,868,971 in 1870. The increase in New York is given at over five hundred millions in the decade, the valuation now being $1,949,070,379, against $1,360,465,638 in 1860.

While the North has steadily grown in wealth and the extent of its resources, the South has declined, and to-day presents a picture of exhaustion which may well excite commiseration. Referring to the figures, we find that the total valuation of Florida has *declined* from $68,929,685 in 1860 to $31,167,464 in 1870; Georgia, from $618,232,387 in 1860 to $202,563,557 in 1870; Louisiana, from $435,787,265 in 1860 to $250,588,510 in 1870, while in Mississippi the decrease has been from $509,427,912 in 1860 to $154,635,527 last year. South Carolina, the mother State of secession, has not suffered as great a depreciation as some other States, the returns giving her present valuation at $174,409,491, against $489,319,128 in 1860. The valuation of Virginia and West Virginia in 1870 was $480,800,267, against $657,021,336 ten years ago. Kentucky, though torn and ravaged by both parties in the war, appears to be already recuperating, her valuation in 1870 being $423,776,099, against $528,212,693.

The growth of the Territories is shown in the fact that Utah has a present valuation of $13,100,930, against $4,159,020 in 1860, and Washington a valuation of $10,187,816, as against $4,394,735 in 1860, while in other Territories the increase has been even more marked, New Mexico being the only one which shows a decline.

Last month there was another eruption of the volcano of Mauna Loa on the Sandwich Islands. The lava flow was in the vicinity of the great flow of 1859. How extensive it was latest Honolulu papers were unable to learn.

Hawthorne's newly discovered story treats of Revolutionary times.

It must be considered unfortunate that the "organ" has never been able to secure the services of an editor possessed of ordinary intelligence. Here is the present organ-grinder asserting that Congress has enacted a "litigant law" similar to that enacted by the Legislature of this State, and two columns of the veriest twaddle are given on this subject. There is nothing on the statute-book of the United States that bears any resemblance whatever to our State litigant law. "Federal laws" are not published in newspapers at all. Such departmental advertising as is necessary, is done in whatever paper or papers the officials having charge of it may direct. That most of it, under a Republican Administration, should go to Republican newspapers, is natural enough, especially when it is considered that four-fifths of all the good newspapers in the United States are Republican. That there is no law or custom which enables Republican journals to command "Federal advertisements" is proven by the columns of the *Herald* in the very issue in which it sets up this preposterous assertion; for in that issue it has a long advertisement from the Treasury Department relative to the redemption of 5-20 bonds. It would be refreshing, indeed, if an editor of some intelligence and candor could be employed on the "organ," if only for a month, just to see how the change would work.

Vessels from Alaska to San Francisco have brought considerable quantities of ivory, found in our newly acquired northern territory. This is proof that at a remote period Alaska, now mainly within the frozen zone, was a torrid region, since the elephant inhabits only torrid climates. This fossil ivory is said to exist in great quantities, and to be easily obtained. It is no new discovery that elephants once inhabited the now frozen regions of the North. Travellers in Siberia long ago noted it. It is a well attested fact that elephants' flesh in a frozen state has been uncovered from the mud in Siberia, where it had lain perhaps for an hundred thousand years. So well preserved was it in some cases that dogs ate it freely. We have not learned whether elephant's flesh has been found in Alaska or not, but it is affirmed that there is ivory enough imbedded on the banks of the Yukon river alone to supply the commerce of the world for a century.

The result of the campaign in California attests the prodigious power of the Sacramento *Union*, which paper, more than all other influences combined, brought about Booth's nomination and election, and with his election the success of the whole Republican ticket. Without the *Union* Booth would not be Governor of California, and we doubt if any other Republican would. It is only truth to say that the *Union* is a more powerful journal in its influence on public opinion than all other papers of both parties in California, taken together.

The undersigned take this method of correcting an erroneous idea that seems prevalent in this community, notwithstanding our statement to the contrary. It is reported currently in this city, and we understand that some of the newspapers in the interior assert, that our house is a branch of the house of A. L. Bancroft & Co., San Francisco. We wish it *distinctly* understood that we are *not* connected in any manner whatever with A. L. Bancroft & Co., or with any other firm in San Francisco or elsewhere. We are content to stand on our own merits, and feel perfectly confident that we shall be fully able to satisfy our customers and the public.

Tualatin Plains, Washington Co., Oregon, July 22, 1871.

Dr. A. M. Loryea—I have been troubled with Rheumatism for the past *twelve years*; my *joints*, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Unk Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

Influence of Temperature on Health.

To the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as the most fervid summer weather, while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever and the bilious remittent seem to recede before it, and if ever it should come into universal use, these diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent. Be certain, however, to obtain the genuine article, as countless imitations of a pernicious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters are sold in bottles only.

$7,000 00:

The acknowledged Natural Advantages of the Town of Astoria, its convenient access by Sea and Inland Navigation; its pleasant and healthful climate, all render it one of the most desirable places on the northern coast to obtain property.
These Lands will be Sold at Auction, and if only "Auction Prices" are realized, SALE WILL BE ABSOLUTE.
THE TITLE IS PERFECT, as any Lawyer will certify upon examination.
Let any person compare the Astoria of to day with the Astoria of ten years ago, and he will want no further argument to prove that the investment at present prices CANNOT BE UNSAFE, and is likely to be IMMENSELY PROFITABLE.
The proposed Sale is to be made to pay the debts of the late Judge Olney.
For further particulars apply at the office of the County Clerk of Clatsop county, at Astoria, or at the office of Hill, Thayer & Williams, Attorneys-at-Law, Portland.
Astoria, Sept. 6th, 1871.

THE GREAT WORLD TONIC!

PLANTATION BITTERS
This Wonderful Vegetable restorative is prepared from pure St. Croix Rum and Calisaya Bark, known the world over as possessing wonderful tonic properties. As a Tonic and Cordial for the aged and languid it has no equal.

PLANTATION BITTERS
Just the thing for the morning lassitude and depression of spirits caused by late hours and what is called fashionable dissipation.

PLANTATION BITTERS
Of all the appetizers it is the most infallible, and the impulse which it imparts to the digestive functions soon puts Dyspepsia to flight.

PLANTATION BITTERS
It is the foremost remedy of the age. The specific of every species of debility, general or local, constitutional or casual.

PLANTATION BITTERS
A wine glassful taken half an hour before breakfast, dinner or supper, quickens the flow of the gastric juice, and thereby provokes hunger.

PLANTATION BITTERS
"By its use I dispose of three good square meals per day, with a good relish, have no pains and have gained sixteen pounds in eight weeks; sleep well, and consider myself a healthy man."

PLANTATION BITTERS
Taken moderately, three times a day, will give you strength, health and a cheerful and contented disposition.

PLANTATION BITTERS
Will give rest and quiet to those who cannot sleep, from unsatisfactory condition of their affairs.

PLANTATION BITTERS
Will restore tone and vigor—just the thing for mothers nursing.

PLANTATION BITTERS
"Well, they cured me of every distressing symptom in ten weeks and you had better follow my example."

PLANTATION BITTERS
If you want pure, rich and electrical blood—blood that gives tone to the system, the "rose tint of health" to the cheek.—Try it.

PLANTATION BITTERS
Thousands of families in Ohio and Mississippi valley, and on the border of the southern rivers and swamps, will not be without it.

PLANTATION BITTERS
Which is the cheapest? A dollar bottle of Plantation Bitters, or a physician at two dollars a visit?

PLANTATION BITTERS
"The value of such an antidote cannot be expressed in words."

PLANTATION BITTERS
Will restore the vital energy, repair indigestion, and correct the sluggish circulation of the blood.

PLANTATION BITTERS
Is an unequalled invigorating cordial for the aged as well as for the young.

PLANTATION BITTERS
Is unsurpassed for weak and delicate persons, on their requiring a gentle stimulant.

PLANTATION BITTERS
"I began taking your Bitters the next day, and am perfectly happy to tell you that they have completely restored my health, strength and cheerfulness."

PLANTATION BITTERS
"I find nothing so good for headache and languor to which my daughters are at times subject. It gives them a splendid appetite, and they eat like pigs."

PLANTATION BITTERS
"By advice of my physician, soon after my baby was born I commenced taking them, and they have done me so much good."

PLANTATION BITTERS
Are sold everywhere.

COSMOPOLITAN HOTEL.
CHANGE OF PROPRIETORSHIP.
H. H. PEARSON,
Late of the Russ House.
HAVING BOUGHT THE INTEREST OF Messrs. Tubbs & Patten, of the Cosmopolitan Hotel, and secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation insures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodations, and by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the best of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The House will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August [illegible]

THURSDAY MORNING, SEPT. 14, 1871.

CITY.

The Ship Bristolian.—This ship, with a cargo of railroad material, arrived at the lower wharf yesterday morning, drawing fifteen feet, with only a part of her cargo in her. Both the *Okanagon* and the *Josie McNear* were required to tow her up. The *Bristolian* is commanded by Capt. Samuel Middleton. She is what is called frigate build, of 890 66 registered tons. She was built at St. Johns, New Brunswick, in 1861, but is owned at Bristol. Her length is 166 feet from stem to stern post; 34 feet beam, and 20 feet depth of hold. Built of live oak, teak wood and pine, she is very staunch. In the matter of useful and convenient appointments, very few ships have ever entered our river which were her equals. The captain's cabin is roomy and arranged in such manner as to be not only convenient but comfortable and homelike. Capt. Middleton carries with him a small select library of books, and all the little appliances necessary to render a man satisfied with this life. The ship is provided with a spacious sail-makers' room, a cook room as large and as well arranged as the average rooms on board the passenger steamships, and a carpenter shop which is a model of completeness. The general appearance of the ship is neat and trim. Some of the sailors have been with her for several successive voyages, and they appear to be entirely satisfied and to regard the ship as home. We learn that the owners will load her back to England with wheat on their own account.

Letters Detained for Postage.—The following is a list of letters held for postage in the Portland Postoffice, Sept. 13, 1871:

Mr. Jas. W. McGowan; Chinook, W. T.
Mr. Andrew Allen; Petersburg, New York.
Mrs. Augusta L. Allen; Centerdale, Iowa.
Dennis Murphy; Newport, R. I.
Miss Emma A. Springer; Rock Run, Ills.
Editor New York *World*; New York City.
Chas. Rogsell; Walla Walla, W. T.
W. J. Calhoun; St. Louis, Mo.

Served Him Right, if True.—The last evening *Bulletin* says: "About eight o'clock this morning, out in Caruthers' Addition, a slight domestic disturbance resulted in a [illegible] by the name of Nixon (a nice name, to be sure) receiving surgical attendance for a dislocated ankle. It appears that Mrs. Nixon, from some cause, did not have the morning meal prepared with promptness to suit her liege lord, and he attempted to accelerate her movements by the judicious application of a healthy rolling-pin. In making his way from the dining-room to the kitchen, however, his feet became entangled in the carpet, causing a fall and a dislocation of the ankle."

European Railroad Commissioners.—The party of gentlemen whom we mentioned last week as having been sent out by European capitalists to examine the Northern Pacific Railroad have returned from Puget Sound. They will start to-morrow for the East by way of the Columbia river, Walla Walla, Idaho and the Pacific Railroad. We learn that they visited all the principal points on the Sound and Victoria. Of their impressions and conclusions about the country, as connected with the investment of money in the railroad, we have no information. They will reserve all that till they shall make their report at home.

How Real Estate has Gone Back.—Yesterday a lot, fronting on North First and E streets, was sold for $4,500 cash, without any improvement except piles, driven during the high water, on which to build. The lot is at least eight or nine feet below the street grade. The man who sold it yesterday bought it two years and a half ago for $300; and has since expended on it—driving piles and for street improvement on E street—about six or seven hundred dollars, making the total cost to him about $1,000.

Gone East of the Mountains.—Mr. Gilmore, formerly a resident of this city and a member of the City Council but earlier and since, a resident of Yamhill county has sold his farm and is going East of the mountains, and probably into Washington Territory. Several families from Polk county on their way to Walla Walla passed through the city yesterday morning. Later in the day we saw another emigrant party who had come down the East side of the river.

First Subscription Paid.—Yesterday Messrs. Burrell, Ferry & Woodward paid their subscription of $500 to the Oregon Central Railroad Co. Those gentlemen are the first to come up with their part of the subsidy refered to this city last fall. The road is not quite finished yet, but the time when it will be is so near at hand that they did not care to postpone the payment. The act reflects credit upon their public spirit and business promptness.

The Pixley Troupe.—The Pixley Sisters will leave for Walla Walla to-day, to play a short season there, after which they will return to Oregon with a view of playing at Salem during the State Fair. The troupe consists of the sisters, Annie and Minnie, and Messrs. Clinton, Ellerton and Sparks.

Steam Machinery.—They are building at the Oregon Iron Works, the boiler and engines for a stern wheel steamer to be built at Seattle. The steamer is owned by Capt. Wright, and is to run on the Sound. The same works are building the boiler for the steam fog whistle at Cape Flattery.

The Gospel According to Miss Anthony.—Miss Anthony and Mrs. Duniway have gone to Salem, where they will hold forth this evening. On Saturday they will go to the Dalles to spread the gospel of women suffrage. Their mission, we hear, will be extended to Walla Walla.

Steamer Changes.—The dispatches state that Holladay & Brenham have bought both the *Constantine* and the *William Tabor*, opposition steamers. The *John L. Stephens* has been hauled off the Portland route and the *Ajax* has been substituted.

Desperate.—Late Tuesday evening a man who refuses to give his name, attempted suicide by drowning at the foot of Yamhill street, but was prevented by a man who happened to be near. The poor fellow was impecunious and despondent.

Delayed by Smoke.—The steamer *Oneonta*, for Cascades, did not leave her wharf yesterday morning till half past 8 o'clock, on account of fog and smoke. Her arrival back, last night, was very late.

Street Obstructions.—Some of the residents on Second street, between Salmon and Main, complain that large wood piles have been allowed to remain in the street an unreasonable length of time.

In New Dress.—The steamer *Okanagon*, after being thoroughly overhauled, at the boneyard, is again in service on the Monticello route. She is looking better than ever.

Passengers for Oregon.—Mr. E. P. Rogers and family passed Ogden, yesterday, coming West, by Pacific Railroad, bound for Portland.

Outside Land at Auction.—Yesterday morning Mr. A. B. Richardson sold at auction an 80 acre tract of outside land for $500.

BUSINESS NOTICES.

Real Estate Sale.—At auction, on Saturday next, the 16th September, by A. B. Richardson, four quarters block 321, situated upon Yamhill and Thirteenth streets. The locality is most beautiful and very healthy; convenient to the center of the city and the new Parks, and about six minutes walk to the new Postoffice, commanding a view of East Portland and the snowy mountains. For private residence or investment it is most suitable. Grading very light indeed and the block perfectly level. Terms half cash and long time—one and two years. The opportunity to purchase such desirable and valuable property may never occur again.

SERVED HIM RIGHT, IF TRUE.—The last evening *Bulletin* says: "About eight o'clock this morning, out in Caruthers' Addition, a slight domestic disturbance resulted in a man by the name of Nison ('a nice 'un, to be sure) receiving surgical attendance for a dislocated ankle. It appears that Mrs. Nison, from some cause, did not have the morning meal prepared with promptness to suit her liege lord, and he attempted to accelerate her movements by the judicious application of a healthy rolling-pin. In making his way from the dining-room to the kitchen, however, his foot became entangled in the carpet, causing a fall and a dislocation of the ankle."

EUROPEAN RAILROAD COMMISSIONERS.—The party of gentlemen whom we mentioned last week as having been sent out by European capitalists to examine the Northern Pacific Railroad have returned from Puget Sound. They will start tomorrow for the East by way of the Columbia river, Walla Walla, Idaho and the Pacific Railroad. We learn that they visited all the principal points on the Sound and Victoria. Of their impressions and conclusions about the country, as connected with the investment of money in the railroad, we have no information. They will reserve all that till they shall make their report at home.

HOW REAL ESTATE HAS GONE BACK.—Yesterday a lot, fronting on North First and E streets, was sold for $4,500 cash, without any improvement except piles, driven during the high water, on which to build. The lot is at least eight or ten feet below the street grade. The man who sold it yesterday bought it two years and a half ago for $300, and has since expended on it—driving piles and for other improvement on E street—about six or seven hundred dollars, making the total cost to him about $1,000.

GOING EAST OF THE MOUNTAINS.—Mr. Gilmore, formerly a resident of this city and a member of the City Council, but earlier and since, a resident of Yamhill county has sold his farm and is going East of the mountains, and probably into Washington Territory. Several families from Polk county on their way to Walla Walla passed through the city yesterday morning. Later in the day we saw another emigrant party who had come down the East side of the river.

FIRST SUBSCRIPTION PAID.—Yesterday Messrs. Everett, Ferry & Woodward paid their subscription of $500 to the Oregon Central Railroad Co. These gentlemen are the first to come up with their part of the subsidy raised in this city last fall. The road is not quite finished yet, but the time when it will be is so near at hand that they did not care to postpone the payment. The act reflects credit upon their public spirit and business fitness.

THE PIXLEY TROUPE.—The Pixley Sisters will leave for Walla Walla to-day, to play a short season there, after which they will return to Oregon with a view of playing at Salem during the State Fair. The troupe consists of the sisters, Annie and Minnie, and Messrs. Clinton, Ellerton and Sparks.

STEAM MACHINERY.—They are building at the Oregon Iron Works, the boiler and engines for a stern wheel steamer to be built at Seattle. The steamer is owned by Capt. Wright, and is to run on the Sound. The same works are building the boiler for the steam fog whistle at Cape Flattery.

THE GOSPEL ACCORDING TO MISS ANTHONY.—Miss Anthony and Mrs. Duniway have gone to Salem, where they will hold forth this evening. On Saturday they will go to the Dalles to spread the gospel of woman suffrage. Their mission, we hear, will be extended to Walla Walla.

STEAMER CHANGES.—The dispatches state that Holladay & Brenham have bought both the *Constantine* and the *William Tabor*, opposition steamers. The *John L. Stephens* has been hauled off the Portland route and the *Ajax* has been substituted.

DESPERATE.—Late Tuesday evening a man who refuses to give his name, attempted suicide by drowning at the foot of Yamhill street, but was prevented by a man who happened to be near. The poor fellow was impecunious and despondent.

DELAYED BY SMOKE.—The steamer *Oneonta*, for Cascades, did not leave her wharf yesterday morning till half-past 8 o'clock, on account of fog and smoke. Her arrival back, last night, was very late.

STREET OBSTRUCTIONS.—Some of the residents on Second street, between Salmon and Main, complain that large wood piles have been allowed to remain in the street an unreasonable length of time.

IN NEW DRESS.—The steamer *Okanagon*, after being thoroughly overhauled, at the boneyard, is again in service on the Monticello route. She is looking better than ever.

PASSENGERS FOR OREGON.—Mr. E. P. Rogers and family passed Ogden, yesterday, coming West, by Pacific Railroad, bound for Portland.

OUTSIDE LAND AT AUCTION.—Yesterday morning Mr. A. B. Richardson sold at auction an 80 acre tract of outside land for $500.

BUSINESS NOTICES.

REAL ESTATE SALE.—At auction, on Saturday next, the 16th September, by A. B. Richardson, four quarters block 321, situated upon Yamhill and Thirteenth streets. The locality is most beautiful and very healthy; convenient to the center of the city and the new Parks, and about six minutes walk to the new Postoffice, commanding a view of East Portland and the snowy mountains. For private residence or investment it is most suitable. Grading very light indeed and the land perfectly level. Terms half cash and long time one and two years. The opportunity to purchase such desirable and valuable property may never occur again.

DR. LINDSLEY'S ADDRESS.

The following synopsis of the sermon delivered by Dr. Lindsley on last Sunday evening in the First Presbyterian church owing to the too crowded state of our columns could not appear sooner. We do not claim perfection in reporting but we give it as near as we can in so short a space:

The Doctor's discourse was suggested by the second verse of the third chapter of the first epistle of John: "Beloved, we are now the sons of God; and it doth not yet appear what we shall be; but we know that when He shall appear, we shall be like Him, for we shall see Him as He is."

The speaker began by saying that the progress of our race towards perfection was a theme often discussed, and a doctrine believed in, by profound thinkers in enlightened countries, and in every age. A deep conviction of human perfectibility kindled an earnest longing for it, in the minds of men upon whom the light of revelation never shone and who felt that virtue was the highest good, and should be followed to perfection. But virtue is a life, or it is nothing; and in whom does it live? It must have a source not in man; the fountain of perfection must be God. But man unaided cannot soar to that infinite height. The immensity of God forbids all approach; the distance is measureless; and man falls into despair.

Our highest aspirations, therefore, can be answered only in God. Revelation speaks when nature is silent, and God's messenger exclaims, Behold what manner of love the Father hath bestowed on us, that we should be called the sons of God!

Divine love brings us nigh to the Father. It makes the tide of virtue flow towards us from its infinite source. It brings salvation.

But it must be a life, an example, a culture, a ripening, a perfection, and all made accessible to us. This brings the Father nigh to us, the true manifestation of God, in the person of Jesus Christ.

Our Redeemer took our nature that He might come near to us, and gives us his nature that we might come back to God. Thus through him is the way to the Father, who sends the Spirit of his Son into our hearts to make us his sons and daughters.

This is the Gospel. This is God's plan of virtue and perfection. All human schemes of virtue and perfection are weak and ineffectual. The toad pulls off his skin and gets a new one every year, but he is the same disgusting creature still. Men cast off the scales of an evil nature and the tatters of corrupt habits, only to find the one growing out again, and the other reappearing in a different hue, the spirit within being unchanged.

But God is no feeble reformer. He puts the spirit of His Son within us, and clothes us in the robe of righteousness which Jesus wove for us in his life of obedience and purchased the right for us to wear when He bore our sins on the cross. Thus He gives to our nature his likeness; to our kinship his rank, to our destiny his heaven and his glory.

The speaker then proceeded to show that the evidence of sonship was often obscure. Sometimes it was hidden within the robe of affluence, or beneath a royal crown, and sometimes within the apparel of poverty so scant that grace has more room to show itself; but it doth not yet appear what God's sons and daughters shall be. Its best qualities are spiritual, and, therefore, incapable of direct manifestation. The world knew not Christ,—neither can they know by positive proof his faithful followers.

The most precious things are unknown until decisive tests are applied. The rough rock, the rounded boulder gives no sign of hidden treasure; but crystal and fossil lie embalmed within. As I (said the speaker) once laid open a geological deposit of extraordinary beauty this scripture was illustrated, "It doth not yet appear what we shall be." But though the sons of God may be unknown to men and angels, it is consolatory to reflect that "the Lord knoweth them that are his!" Like the daguerrian artist who takes the picture into a darkened room and manipulates it, so the Father applies in the dark the discipline which will bring out indelibly in the light the lineaments of His beloved. "He chasteneth every son whom He receiveth." The spirit in which men treat God's chastisements makes it appear whose sons they are. One of his elder sons, the patriarch Job, exclaimed out of the furnace of affliction, "When Thou hast tried me, I shall come forth as gold!" And Madame Guyon, in her prison, made it appear whose daughter she was, by the godliness of her spirit. A few verses of her beautiful poem will best display it:

"A little bird I am,
Shut from the fields of air;
And in my cage I sit and sing
To Him who placed me there;
Well pleased a prisoner to be,
Because, my God, it pleases thee.

"My cage confines me round;
Abroad I cannot fly;
But, though my wing is closely bound,
My heart's at liberty.
My prison walls cannot control
The flight, the freedom of the soul.

Oh! it is good to soar,
These bolts and bars above,
To Him whose purpose I adore—
Whose providence I love;
And in Thy mighty will to find
The joy, the freedom of the mind."

A career of usefulness also furnishes evidence of sonship.

Friction polishes the diamond; so effort for the good of others brings out the polish and the light of a Christ-like character. This is the true and rational plan of development. We know not what we are capable of. We know not what we shall be. We are wrapped in mystery. Time, circumstance, guided by the unseen hand, work changes in us; but activity marks progress. We advance, but it doth not yet appear what we shall be. There are slumbering powers in man, which only the future can arouse, energies which new fields only can employ. All history is full of analogies and examples. When an emperor wrought in the ship-yards of Rotterdam, it did not appear what he was, or what he should be; but when he returned and taught ship building to his subjects, Peter the Great was greater than when he marched at the front of victorious armies. It did not appear what Cincinnatus would be when he was called from his farm to the dictatorship of Rome, and saved the republic. An Israelite was plowing with twelve yoke of oxen, when a mighty prophet threw his mantle upon him, and he said, "Suffer me, first to kiss my father and my mother"—filial love struggled with the call to greatness, gentleness and manliness united—but it did not appear what Elisha should become. Let the mantle of Christ fall on us, and our progress towards the highest good is assured. But alas! how many cast off the prophet's mantle, and go on plowing and plodding in the furrows of earthliness! An emperor reigns in Paris, who dictates peace or war to the world. No greater fields of usefulness were ever trodden by a king; but he spurned it all in the interests of a dynasty which was never to be perpetuated. It did not appear what he should be; but time brings its revenges; and now he is caged on a solitary island in the South Atlantic Ocean, dying. Hear him: "Why did not the enemy's artillery destroy me? I was Napoleon; now I am nothing!"

[Other passages of this discourse we would be glad to lay before our readers, did our space permit. The speaker closed with remarks upon the capability of all men to be saved.]

Sin, the author of all evils, which broke our alliance with God, had not destroyed his image in our souls. Sin had broken and defaced it, and Christ came to restore it. Every man had the groundwork of godliness within him, and upon this Christ wrought to rebuild the structure of immortality.

A longshoreman is treading a street of New York. His aspect is forbidding. His garments polished by toil, cling to him like the plates of a rhinoceros' hide. He is the representative of a hardened and almost hopeless class. But wait—it doth not appear what he is. Those children in the alley are his. He catches one up on either brawny arm, and the accents of fatherly love mingle with the childish shouts of glee. His humanity is stirred within him, and that is the proof of his godlikeness! But another cry is heard in the street, a shout of alarm! An affrighted horse, dragging a dray after him, is plunging down the street. A group of little children, unconscious of danger, are in his track! Who shall save them? Dainty fashion, taking an airing, utters a scream, and falls back in a swoon. Broadcloth finds an open door,—and looks on. But a giant grasp is laid upon the bit. The ridgy muscles of that longshoreman's face are set to do or die. With herculean strength the infuriated beast is turned aside,—and the children are saved! Thus Christ would have done, thus he does, in the person of those who have his Spirit, though it doth not yet appear so.

We despair of no man, since the Son of God hath appeared for us; and every man carries about with him the vestiges of his divine origin. The rudest has the marks of deity upon him, and the most polished has no more. They are often found in the most unfavorable circumstances. An artist discovered a block of marble, stained and unsightly, and covered with filth, and his friends were surprised at his desire to remove it to his studio. Said he, "There is an angel in it." And the miraculous chisel of Michael Angelo made the angel appear. So the great Artist finds us in our sins and wretchedness, removes us into His kingdom, and fashions us after the model of the new man, which is Christ Jesus.

Brethren, it doth not yet appear what we shall be; but it shall appear in due time!

We have heard a very general wish expressed to hear the Doctor further on this subject. Our report does not include many of the choicest illustrations that fixed and riveted the attention of his hearers.

COMMON COUNCIL.

REGULAR MEETING, SEPT. 13, 1871.

Present—His Honor Mayor Wasserman and Councilmen Bills, Burton, Caywood, Combs, Hallock and McHett.

PETITIONS

Were received from E. Milwain, E. J. Bryan and J. P. O. Lownsdale for the use of certain streets for building purposes.

REPORTS.

The Committee on Streets and Public Property reported that, in accordance with instructions, they had purchased in the name of the city certain lots sold by the Chief of Police for delinquent street assessments.

The Auditor and Clerk reported that the Chief of Police had returned the assessment roll, with a report of his proceedings, by which it appears there has been collected the sum of $9,200 64 taxes; that the sum of $1,045 15 is delinquent and a large part of it not collected.

On motion of Mr. Hallock, the Auditor was directed to issue alias warrants for the collection of the delinquent assessments from time to time as may be necessary.

The Chief Engineer of the Fire Department reported that new tops are needed to cisterns at intersection of Alder and First, Morrison and First; that repairs to engine house and hose are needed, and recommending that the cistern at Fifth and Oak be connected with the water main. Report was referred to the Committee on Fire and Water.

CLAIMS AGAINST THE CITY.

The following claims were allowed and ordered paid: J. H. Hayden, use of a building for election purposes, $8; Himes & Bachelder, printing, $31 50; Harris & Holman, books and stationery, $96 35; T. Patterson & Co., advertising, $11 50; J. H. Butler, poster work, $12; J. H. Butler, cleaning Council room, August, $18 50; A. Myers, filling a ravine, $26; Corbett, Failing & Co., mdse, $16 50; E. Milwain, mdse, $5. Holman & Co., hauling, $2 50. Street contracts—E. Johnson & Co., A street, $180 04; P. G. Baker, North Ninth street, $68 42; A. Hamilton, Alder street, $691 09; Morrison & Gosliner, Park block and street, $409 90.

ORDINANCES, FIRST READING.

An ordinance to provide for the time and manner of improving North Twelfth street, from B to K—read first and second times.

An ordinance to extend the time for improving Eighth street, between Jefferson and Jackson, to November 1st—read three times and passed.

An ordinance to amend ordinance No. 1,024, entitled an ordinance to provide for time and manner of improving Alder street, from Tenth to Lowndsdale streets—read three times and passed.

An ordinance making an appropriation ($3,535 55) out of general fund for certain lots purchased by the city—read three times and passed.

An ordinance to change certain grades [North Fourth at G, North Front at E, F, G, H, I, J, K, North Ninth at J], read three times and passed.

An ordinance to establish certain grades [on North First and North Ninth]—read three times and passed.

An ordinance, introduced by Mr. Bills, to fix the salaries of Street Commissioner, Treasurer and City Attorney—

Mr. Hallock objected on the ground that the ordinance embraced more than one subject.

Mr. Bills, by consent, withdrew it.

Mr. Hallock introduced an ordinance to license and regulate certain places of amusement [imposes a license upon houses where females are kept for dancing] read three times and passed.

The ordinance, heretofore introduced, to adopt the report of viewers in the matter of the extension of Main street—laid on the table.

RESOLUTIONS.

Resolution that Josiah Failing, O. Risley and P. D. W. Hardenburg be appointed viewers in the matter of the extension of Ninth, Tenth and Eleventh streets—adopted.

Resolution that upon the approval by the Mayor of the ordinance making an appropriation to pay for certain lots purchased by the Committee on Streets and Public Property, for delinquent assessments, the Auditor shall draw his warrant in favor of the Chief of Police for the amount specified in the ordinance—adopted.

Resolution that the Committee on Streets and Public Property be instructed to inquire what steps are necessary to enforce the contract for grading South First street, in front of lots 1 and 2, in block 7, and lot 3, in block 61, Caruthers' Addition, and as to whether a person delinquent under a permit to improve streets, can be allowed to have future contracts—referred to the Committee on Streets and Public Property.

The Council adjourned till 7 o'clock next Wednesday evening.

THE NEW THEORY FOR DISEASES OF THE AIR PASSAGES.

A WORD FROM AN OLD SCHOOL PHYSICIAN AS TO ITS MERITS.

There are many systems of medicine by which we attempt to heal the human body and make it free of disease, ranging from the science of Allopathy down to that of Hydropathy. How far they have succeeded time has abundantly shown by the number of their failures, as well as by the number and nature of their cures.

In the cure of pulmonary disease, Dr. Aborn has stepped out of the old beaten track, and adopted a system so simple, direct and natural, as to recommend itself to all who are suffering from catarrh and disease of the lungs, of a character defying cure by any of the old methods of treatment.

Although from childhood I have been raised, and also went through a regular course and graduated as an Allopathist, yet a strict love of what is right and best, as well as personal benefit received by the new system as practiced by Dr. Aborn, teaches me to bear some testimony to its merits for the benefit of suffering humanity.

A. FALCONER, M. D.,
Lawrenceville, Pa.

ANOTHER INDISPUTABLE EVIDENCE OF THE CURABILITY OF LUNG DISEASE.

Sir James Clark says: "That pulmonary consumption admits of a cure is no longer a matter of doubt; it has been clearly demonstrated by the researches of Laennec and other modern pathologists."

Dr. Carswell declares: "Pathological anatomy has perhaps never afforded more conclusive evidence in proof of the curability of a disease than it has in that of tubercular phthisis."

The case of Dr. Joseph Parrish, of Philadelphia, who died at the age of sixty-one, is conclusive. It is thus related in the *American Journal of Medical Science*: "When about twenty-five years of age, the doctor was afflicted with a severe and lasting cough, and considered himself in danger of pulmonary consumption, to which he believed he had a family predisposition, having lost a brother and sister by that complaint. The existence of cicatrices in the lungs discovered upon post-mortem examination proves that his apprehensions were well founded, and at the same time affords strong evidence in favor of the plan of treatment which he had adopted for his own case, and always strenuously advocated.

For many years after the disappearance of the pectoral affection, Dr. Parrish suffered much from dyspepsia, which continued with him even until middle life. But from this also he was at length relieved and afterwards enjoyed good health. This class of maladies is one in which Dr. Aborn, who is now at the St. Charles Hotel, has had large experience, and his method of treatment has proved almost universally successful after all others have failed.

It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.

IT DOES NOT SMOKE THE CHIMNEY in the least.

A gallon of it will burn as long with the same height of blaze as Kerosene.

It is more easily extinguished, when ignited, than Kerosene.

It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

Some of the Results.

Some of the results of the California election are thus stated by the San Francisco *Alta* :

The whole Republican party of California experience extreme satisfaction, now that the contest is over and the victory is theirs, in contemplating the transformation that is soon to take place. The Commissioners, who have been amassing fortunes off the tax-payers, will be called upon to strike a balance on their books and retire to private life, there to eke out a miserable existence by earning an honest living. All of the little newspapers throughout the State, designated as litigant organs, and now supported by money wrung from litigants, will soon have numerous fonts of type for sale, and the field will again be thrown open to enterprising newspaper men. The *Examiner*, which has served its masters well for the pecuniary blessings showered upon it by the last Legislature, will take a most disastrous tumble from its present exalted pap-supplied position. The gorgeous list of Colonels and Lieut.-Colonels belonging to the staff of "California's favorite son" have a surplus of silver-mounted saddles and spurs, and showy uniforms that will be of no use to them now, and they could probably be bought cheap, or perhaps they will be raffled off. One of Haight's staff, who basks in the sunshine of five offices, bestowed upon him by his Chief, feels disheartened at his future prospects of earning a livelihood. And then the grand army of plunderers, who attend the Legislature, and to whom that body has been in the habit of donating thousands of dollars for faithful services performed during elections, will have to seek subsistence elsewhere. All this will be accomplished by the Party of Progress and Reform, which will soon assume the reins of Government.

The Wisconsin Republicans—Their Platform and their Presidential Candidate.

[From the New York Herald.]

The Wisconsin Republicans have had their State Convention, have nominated C. C. Washburn (a brother of our Minister at Paris) as their candidate, and have resolved in substance, that the Republican party deserves the applause of the country ; that the new amendments to the Constitution are just the thing, and that Congress, with the right to enforce them, should enforce them when necessary ; that they rejoice in the recuperation of the Southern States, but regret the existence of the Ku Klux Klans ; that they believe in the prosperity of the country and the payment of the national debt ; that they are in favor of a tariff which will satisfy everybody, that actual settlers have the paramount right to the public domain ; that new safeguards are wanted for the purity of elections, and that, glorying in "the wise and prudent administration of General Grant," in its foreign and domestic policy, "it deserves and receives our hearty approval"—which, being interpreted, means that General Grant is the Presidential candidate of the Wisconsin Republicans against all comers for 1872. And so, State by State, in their State Conventions, the Republicans proclaim their admiration of General Grant ; and yet, Mr. Greeley, who can see nothing else while Mr. Murphy is in the Custom House, still goes for cutting off the General with one term. But Mr. Greeley will go to the end of his rope before the month is out, and then, perhaps, as a Grant man, he will make up for lost time. Who knows?

The Muscular Strength of Insects.—The strength of an insect can be finely illustrated by a feat that was once performed by a beetle —*oryctes maimon*—a variety that is quite common in the United States. The beetle, for want of any box at hand, was put beneath a quart bottle full of milk upon a table, the hollow at the bottom allowing him room to stand upright. Presently, to the surprise of all in the room, the bottle began slowly to move and glide along the smooth table, propelled by the muscular power of the imprisoned insect, and continued for some time to perambulate the surface. The weight of the bottle and its contents could not have been less than three pounds and a half, while that of the beetle was about half an ounce, so that it readily moved a weight one hundred and twelve times exceeding its own. A better notion than figures can convey will be obtained by supposing a lad of fifteen to be imprisoned under the great bell of St. Paul's, which weighs 12,000 pounds, and to move it to and fro upon a smooth pavement by pushing within against the side.

We have another instance of insect-power power that is quite as remarkable as the one just related. A small kind of carabus, an elegantly formed ground beetle, weighing three and a half grains, was once fastened by a silk thread to a piece of paper, a weight having been previously laid upon the latter. At a distance of ten inches from its load, the insect was able to draw after it upon an inclined plane of twenty-five degrees, very nearly eighty-five grains, but when placed on a plane of five degrees inclination, it drew after it one hundred and twenty-five grains, exclusive of the friction to be overcome in moving its load.

FINANCE AND COMMERCE.

Wednesday Evening, Sept. 13, 1871.

Gold in New York, 114½.

Currency, buying, 87½c ; selling, 88½.

The *Bridgeton* arrived at her wharf this morning. The *Skiddaw* will drop down the river, and the *Dovenby* will go on the berth to-morrow.

The *R. W. Wood*, from this port to Honolulu, arrived at the latter port August 17th. She was loading with Island products, and was advertised to have quick dispatch for this port.

The Hawaiian *Advertiser*, of August 26th reports that a storm visited the Islands, doing considerable damage to the sugar plantations. It says: "The entire damage throughout Maui and Hawaii resulting from this gale, has been roughly estimated at $200,000, and we do not consider this too high, taking into account the present actual losses together with the prospective decrease in produce." It also says, "But little sugar is coming forward, as most of the mills have finished grinding for the season."

Our San Francisco exchanges say that the combination for higher tariff by the Pacific Mail Steamship Company and the Union Pacific Railroad Company is reported accomplished.

There was only one vessel loading Wheat for England, the *Cornwallis*, at San Francisco, September 8th. The *Alleghany* chartered to load Wheat for England, has been up for recharter. The *River Krishna* will load for France direct. The *Norseman* takes a full cargo of Flour to England. The *Ringleader* takes a cargo of Flour to Hong Kong. These are all the vessels loading or under engagement to load produce at San Francisco. It will be seen by the above statement that shippers have not been in the market for Wheat to any extent, allowing speculators to purchase.

We clip the following from the San Francisco *Commercial Herald* of Sept. 9th:

The receipts of Wheat during the period under review have been much greater than any like period since harvest; yet less by more than one-half, as compared with same time last year. Our exports since harvest have also been proportionally light, and it is now questionable whether the aggregate harvest yield of Wheat will come up to the estimates made in July, namely, a surplus for export, for the season of 1871-72, equal to 100,000 tons. Thus far this season, we have dispatched to the United Kingdom only nine ships, against thirty-one in the same period last year.

The scarcity of supplies, and the urgent necessity of distillers, millers and even shippers, to buy, compelled them to enter the market as competitors with speculators, thus carrying up prices far above the shipping limit and actually higher than the relative value of Flour, and this in turn caused millers to advance Flour rates fully 50c per bbl. On the 7th of September the Liverpool quotations came of 12s.4d, and up went Wheat to $2 75 per cental. Barley and Oats have not fully sympathized with the movement in Wheat, yet holding their own in a good degree. Corn is in light supply, with renewed receipts by rail. It has even been hinted to us that Wheat might also be brought here from over the mountains by the Pacific Railway, should prices advance much higher on this coast.

The advance in gold has by many been looked for before this, and not expected to stop short of 120@125. This belief was based upon the following grounds mainly, though there are others which are unnecessary for our purpose to state: There has been a larger increase in our imports for the past fiscal year ending September 1st, 1871, than ever before known in our commercial history, since immediately following the quelling of the rebellion. The aggregate value of importations into New York for the fiscal year we cannot give, only giving the amount from January 1st, 1871, to June 30th, 1871:

Imports for first six months of 1871	$182,665,194 00
Exports " " " " "	101,555,752 00
Excess of imports over exports	$81,110,442 00

Upon this and the fact that a large sum of specie would be exported to meet the July interest on bonds due abroad gave good cause for the opinion of an early rise. Following table of export of specie from New York for the week ending August 19th, 1871, during the past 20 years shows the correct reasoning as to the export of specie:

1870	$35,877,863	1864	$31,785,951	1857	$37,078,490
1869	43,000,453	1863	27,922,122	1856	23,621,017
1868	23,718,970	1862	38,623,776	1855	22,309,427
1867	43,664,597	1861	3,204,058	1854	23,050,027
1866	40,872,171	1860	34,296,184	1853	13,763,567
1865	52,832,443	1859	49,083,811	1852	17,475,564
1871	19,960,545	1858	17,240,170		

In connection with exports of specie we give the New York bank exhibit of specie deposits for each week end ing since January 1st, 1871, where any marked change occurred, as follows:

January 7	$20,869,101	July 1	$16,620,451
February 4	20,233,873	" 8	19,446,714
" 25	23,162,048	" 15	19,768,280
March 4	24,832,573	" 22	18,141,987
" 25	19,017,009	" 29	16,032,739
April 1	17,075,092	August 5	13,364,455
" 8	15,512,180	" 12	12,361,749
May 6	15,807,294	" 19	9,408,805
" 27	15,350,114	" 26	10,722,056
June 3	13,739,690		

The lack of tonnage does not allow of exporting on an extensive scale, as the increased crops and the yield of Petroleum together with the continental demand justified in shipping; thus demanding importers to export specie if forced to meet obligations. The Cotton crop has only commenced coming in, and the home demand together with a lack of tonnage will, to a great extent, retard for the present exporting on an extensive scale which would thus give no large amount of exchange in that quarter for immediate use. In a short time there will be placed on the New Orleans and Liverpool route three more very large steamers just completed or nearly so, together with another which will be finished within three or four months; this increase in the carrying trade from New Orleans will be very profitably felt in the exchange market. Importers owing in Europe will hardly remit now as the rates of interest are so low and there being a plethora of money in Europe that sellers will not care to press claims so that by the time importers wish to meet obligations exchange will be in their favor. This is the argument used by those who do not believe in any material rise to gold. Our latest advices by mail were to this effect: Exchange was principally required to meet purchases in South America which were quite large. That a corner in gold will be, if not already, attempted is believed by many, with what result it is difficult to say with positiveness. If the price of gold is forced up it can hardly remain so long as it is not altogether unlikely if not broken by Secretary Boutwell it would be by importations on the sly from Canada and Europe. There are already in the New York banks $6,000,000 belonging to Canada to operate in the gold market.

Merchandise Report.

WHEAT—Market presents no new feature. We continue our quotations at $2 12½@2 16 per cental.

FLOUR—Receipts for the past few days have been light. Market unchanged, ruling at $7 for extra and $6 25@6 75 for superfine.

CANDLES—Our San Francisco exchanges note an improved demand with an advance in Judson & Co's. We note sales to-day in lots, quotable at 16@20c for adamantine full weight; light weight, 18@15c.

BAGS AND BAGGING—We note sales of standard size 13¼@14½c as per quality and quantity.

SPICES—We quote market: Cloves, 20@25c; Cassia, 33@45c; Nutmegs, $1 10@1 25; Mace, $1 50; California Mustard, $1 50@1 75 per doz.; Pepper, Ginger and Allspice, $1 12½@1 15 per doz.

TALLOW—We note by our San Francisco exchanges, the importation into that city of 800,000 lbs from Australia and 400,000 lbs from Chicago for one of the Candle factories of that city. We note sales during the week at 9@10c for fair to choice.

WOOL—Both by mail and telegraph we have advices of a dull market for Fall clip, with lower prices ruling. Choice grades of Fall command full rates, as does Spring. We quote Spring here at 39@40c.

Markets.

[BY TELEGRAPH.]

San Francisco, Sept. 13.—Wheat—Sales [illegible] $2 45; good milling, $2 67½; choice, $2 62½@2 75.

Flour—3,000 bbls Eldorado and Golden Age superfine for China. The export demand is quiet, the *Ringleader* for Hong Kong being the only vessel loading.

Barley—500 sks coast sold yesterday at $1 60; 1,000 sks choice now brewing to arrive, $2 per cental—an advance of 15 cents on the week.

Oats are measurably neglected at $1 85@1 95.

Potatoes—In better favor at 60@90c; Sweet, $1 50@1 75.

Onions—Have been quite dull of late; quotable at 60@65c, with sales 15 sks Silverskins at inside price.

Corn—The range of market is $2 35@2 45.

Corn Meal—2¾@3¼c per lb for lots from the mills.

Rye—New crop, $1 95@2.

Buckwheat—New crop, $3.

Beans—Bayo, 3¼c; all other kinds, 2¼c per lb for jobbing lots.

Hops—California crop 1870, 12½c; new crop, 75@35c.

Wool—The market is duller than at any previous time this year. Shippers are not buying at all, and only one of the local mills is purchasing. Sales for the week barely reach 50,000 lbs, all by one house. Fall prices for choice is from 1 to 1½c lower than last week, and quite nominal at that. Inferior descriptions are unsaleable, and stock very large; indeed the supply of all kinds is heavier than for some time. We quote clean fall at 20@31c per lb.

Hides—Dry, 18@19c; salted, 9@9½c.

Tallow—A novel feature of the week has been the arrival of 800,000 lbs Australian and 400,000 lbs Chicago, imported on account of Mission Candle Works. Market firm at 9½@10c per lb.

Daily Receipts of Produce.

CITY ADVERTISEMENTS.

Ordinance No. 1,054.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of South Second street lying between Sherman and Sheridan streets.

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of South Second street lying between the south side of Sherman street and the center of Sheridan street, shall be completed in the manner hereinafter provided on or before the first day of November, 1871.

Section 2. The surface of the street shall be cleared of all plank, timbers, or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading, and laying sidewalks, crosswalks and plank gutters where necessary.

Section 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in section 6, 7, 8, 9, 11, and 12 of Ordinance No. 793, entitled "an ordinance in relation to the improvement of streets."

Section 5. The Contractor shall take entire charge of the work during its progress and shall be responsible for any loss or accident resulting from carelessness or neglect.

Section 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Section 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.
